5

How to Connect External Devices

- ① **USB/Power Input** : Connect USB drives, streaming devices, or power banks.
- ② **HDMI Port** : Connect laptops, DVD/Blu-ray players, smartphones (via adapter), or streaming boxes.
- ③ **Audio Output (AUX)** : Connect external speakers or headphones for better sound.

6 Wireless miracast connection

6.1 Android Screen Mirroring

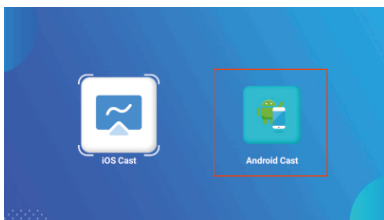

From the Home Page, select Screen Mirroring → Android Cast.

On your Android phone, go to Display Settings or Multi-screen Interaction, and select the projector name to begin mirroring.

Ensure both the projector and your Android device are connected to the same Wi-Fi network.

Different Android devices may have slightly different paths or names for this option—refer to your phone's manual for details.

Tip: The projector name may vary slightly between models. Always select the name that appears on your screen.

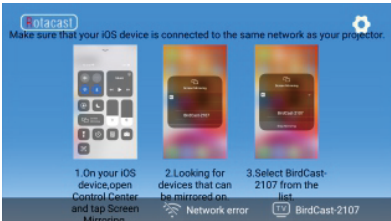

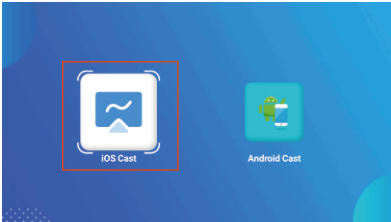

6.2 IOS Screen Mirroring

On the projector, select iOS Cast from the Screen Mirroring menu on the Home Page.

On your iPhone or iPad, open Control Centre and tap Screen Mirroring. Wait for available devices to appear, then select the projector's Cast ID to start mirroring.

Make sure your iOS device and the projector are on the same Wi-Fi network.

Note: Cast IDs differ by model. If connection fails, check that both devices are on the same network or restart the Wi-Fi connection.

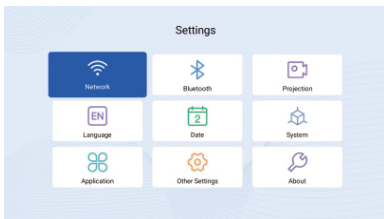

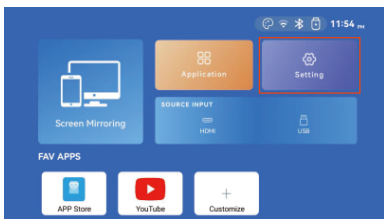

7 Menus & Setup

From the Home Page, open Settings. You can configure:

- (a) Wi-Fi Settings
- (b) Bluetooth Settings
- (c) Projection Setting: Focus, keystone correction, zoom, etc.
- (d) Language
- (e) Date & Time
- (f) System Settings
- (g) Application Settings
- (h) Other Settings
- (i) About

Use the navigation keys on the remote to move between options and confirm with OK.

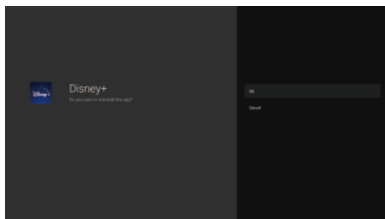

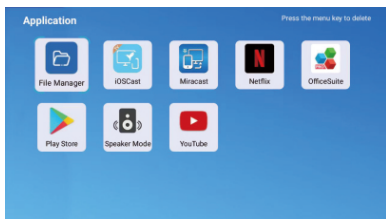

8 My application

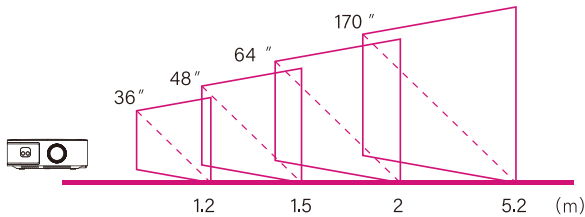

Open the Applications page from the Home Screen.

Select an app to open it or press the "≡" (menu) button on the remote to delete an installed app.

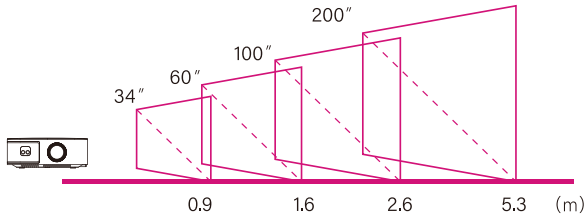

Pre-installed apps may include Netflix, YouTube and other streaming or utility tools.

720p projector distance & size

1080p projector distance & size

Note: Due to optics error of 3%, the data above is for reference only, please use actual measurement when instal the device.
